Date:

Firm:

This document must be in the possession of the minor and must be presented if requested by HIFE staff

* Children may travel unaccompanied under the responsibility of parents or legal guardians, these being the ones who decide the suitability of the unaccompanied trip based on the child's cognitive maturity or other related factors. Our company considers that children under the age of 10 should not travel alone and, although parental authorization is only necessary to leave Spain, a minor should travel accompanied by an adult who is responsible for it.
